Our Features

Technologies that turn conversations into sales. No templates, no days off, in 7 languages.

Training on Data

AI learns from your real conversations and knowledge base. No rigid templates — natural communication.

Launch in 5 Minutes

Lightning-fast integration. Upload sample dialogues, connect Telegram/WhatsApp — and the bot is ready.

Computer Use

AI doesn't just write text. It works in your CRM or ERP: creates deals, changes statuses, checks availability.

7 Languages

Automatic client language detection. Support for Russian, English, Spanish and other languages at no extra cost.

From \$39/mo

Affordable plans for small business. Cost per conversation is 10x lower than a human manager.

Analytics

Detailed dashboard: sales conversion, dialogue sentiment, response speed and rejection reasons.

Structure of Partner Payouts

Transparent growth system. The more clients you bring, the higher your commission and monthly income.
